MOQ for Water Purifier Factories: What to Expect

Buyer action checklist — print & use

Checklist

1. Ask for MOQ per model AND per color/packaging variant — they differ.
2. Confirm whether the MOQ includes spare parts (aim for 1–2% spares).
3. Check if trial orders below MOQ are possible at a surcharge.
4. Get the price breaks in writing (e.g., 500 / 1,000 / 3,000 units).
5. Make sure your first order is big enough to justify a pre-shipment inspection.
